Allowable Subject Matter

1. The applicant lists fig. 1 as prior art; however, the figure is not labeled "Prior Art". Appropriate corrections are required.

2. The following is an examiner's statement of reasons for allowance: the closest prior art reference of record is the PGPUB reference to Allison (2003/0097648). The reference determines the runtime size of an object; but, does not teach or suggest Performing adaptive optimization of application code utilizing an optimizer to calculate a dynamic size metric and utilizing the size metric to perform application code optimizations during runtime (via a runtime compiler). The applicant's admitted prior art (fig. 1) is also close in that it provides for static optimization of code based on size; however, it does not teach or suggest the runtime features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Chavis whose telephone number is (571) 272-3720. The examiner can normally be reached on M-Tue & Th-F, 8:30-5:00.
